Challenges

- Missed opportunities and reduced speed to revenue
- Process for gathering bids is manual, complex, and time-consuming
 - Difficult and inefficient communication with subcontractors

Solutions

Automate bid management and leverage system integrations to increase response time to new revenue

 Streamline the bidding process to allow general contractors to win more business

Automate communication and follow ups with subcontractors

Are you missing opportunities due to a slow bid process?

Questions to Consider

How many times do you have to follow up with a subcontractor to get what you need?

How long does it take you to finalize bids?
